

Boogie Bone

"It has been said, "the blues had a baby and they named it rock & roll." But sometimes, that child does not stray too far from it's mother bosom. That is where Boogie Bone is quite at home. Blues with an edge. Riding on the brink of rock & roll. With guitar riffs that burn. Vocals that tear at one's soul in a manner that cannot be ignored." Greg Johnson, President, Cascade Blues Association

"Boogie Bone gives a cool innovative air to the garage rock blues they play, with an original contemporary daring own style. " Vicente Zumel "La Hora del Blues"

Some blues purists may be put off by the diversity of material from this emerging powerhouse quintet, but it doesn't seem to bother them or their fans "The Boneheads" in the least. Boogie Bone has established themselves on the cutting edge of the fertile blues scene in Portland, Oregon with two albums of all original material. Most of the time using a blues base to explore other genres, but not afraid to knock down any walls that stand in their path. Featuring the attacking guitar style of Steven Dee Williams, soulful dynamic vocals from Jake Johnson, and Oregon Music Hall Of Fame member and multi-instrumentalist Steve Snyder.
